FEATURES

Rigidform™ Technology

RigidForm 160 (rolled-over nail hem) technology stiffens siding for a straighter-on-the-wall appearance and has been tested to withstand wind load pressures up to 160 mph.

DuraLock™ features an oversized rigid tear-drop shape which is substantially larger than many competitors' locks, providing secure installation.

The angular locking leg creates a secure, snap-fit installation, allowing for necessary expansion and contraction.
