

MW CLASSIC™

VINYL WINDOWS

ARCHITECT PREFERRED

MW Classic series windows feature a traditional WM180 brick mould profile that resembles high-quality painted millwork. This unique feature allows architects and designers to specify a high-performance vinyl window without compromising on curb appeal.

- Maintenance-free Multi-Chamber PVC construction with fully welded corners
- Classic brick mould profile provides a sculptured appearance that matches traditional exterior millwork
- 3/4" Warm Edge Insulating Glass
- Face groove allows for easy accessory application. Unique design blends with brick mould profile
- 3-3/8" jamb depth
- Integral nailing fin with welded corners
- Sloped sill without unsightly weep holes
- Traditional Sill Nosing maintains a low profile and matches the aesthetics of a traditional wood window

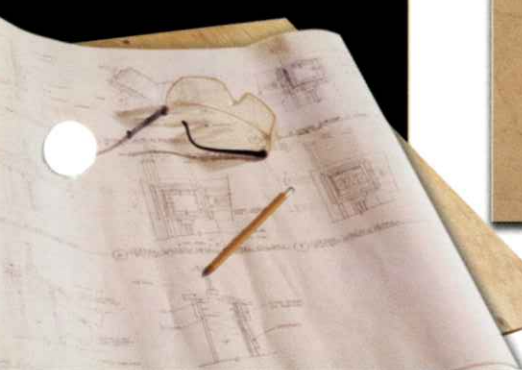

Undersill Trim Leg allows for a professional and secure installation of siding panel

Vertical Dam Leg allows for a more forgiving installation less cupping, crowning and rotation

Integral Siding Pocket will accommodate a wide variety of siding materials, including profiles up to 11/16" wide

The Smart Choice™

MW CLASSIC™

VINYL WINDOWS

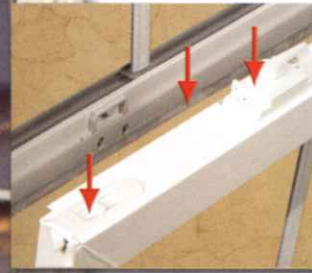

INSTALLER FRIENDLY

Installers and Siding

Contractors will appreciate the time-saving features like the integral J-Channel siding pocket, face accessory groove and undersill trim leg that ensure a quick and accurate installation.

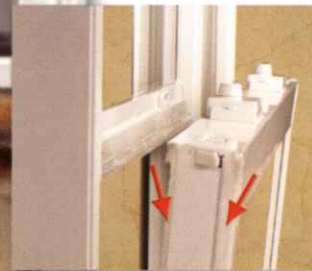

• Inverted Block and Tackle balance system ensures smooth operation of sash

• Color coordinated cam action sash locks

• EZ-Tilt one touch tilt latch system for simple tilt-in cleaning of sash

• Robust interlock satisfies forced entry requirements

• Double weather stripping on lock rail and keeper rail

• Double-opposed weather strip on sash ensures smooth operation and increased weatherability

• Ergonomic lift rails on top and bottom sash for ease of use

• Interior accessory groove can be used for mull strip, dry-wall return and extension jamb clips

• Profile is flush with screen maintaining clean exterior appearance
