About Our Hardwoods

RED OAK (standard) ———
This wood offers white to light brown sapwood and a heartwood that is pinkish to reddish brown. It is similar in appearance to white, but offers a slightly less pronounced figure due to the smaller rays.

WHITE OAK ———
This wood offers a light colored sapwood and a heartwood that is light to dark brown. White oak has more figure due to the mostly straight-grained medium to coarse texture.

CHERRY ———
This wood offers a creamy white sapwood and a heartwood that varies from rich red to reddish brown and will darken with age and natural exposure to light. This wood has a fine, uniform, straight grain, satiny, smooth texture.

HARD MAPLE ———
This wood offers a creamy white sapwood with a slight reddish brown tinge. The heartwood of maple varies from light to dark reddish brown. The amount of darker brown heartwood can vary significantly according to the growing region.

PLEASE NOTE: Photos shown are of wall cabinets only. Base cabinets are available in square style only. Actual colors and grain may vary from photo.

Our Product

Nestled in the Central Susquehanna Valley, Middleburg, Pennsylvania you will find fine local craftsmen hard at work creating some of the finest kitchen cabinets being produced in Central Pennsylvania. We take pride in continuing traditions that have been taught to us by past generations. As we continue the work, it is the future that fuels our desire to continue producing quality kitchens that offer you versatility, flexible design, excellent quality & craftsmanship. You will find our cabinets offer you space, ease of use and quality design. You will be more than delighted to say that we have provided to you a kitchen for life!

Note: Some photos may show features and applications which may have been done on site by builder (stone). Arch and Cathedral available on wall cabinets only.
